Open Tender Notice

Ref.: Iq-01

Title: "Rehabilitation of Power Supply Systems in the Governorates of Nineveh, Salah ad-Din and Al Anbar"

Tender No.: 507302

Project Name: Consulting Services for Program Implementation

Type of Notice: Request for Proposals

Tenderer: KfW on behalf of the Ministry of Electricity

Proj. No.: 301000223

The Government of Germany (GoG) through KfW has extended a credit facility of EUR 500 million to the Republic of Iraq to support investments into the restoration of local economic and social infrastructure, through rehabilitation, construction, or supply of equipment in safe municipalities in liberated territories under the 'German Credit Facility for the Return of IDPs in Iraq' (GCFI) Programme. The GCFI covers interventions in the energy, water/sanitation, roads/bridges, and health sectors, with an initial focus on energy, water/sanitation and roads/bridges.

Part of this credit facility will be used for payments under the present contract. Bidding is open to Bidders, who can prove their eligibility and qualification as mentioned in the Bidding Documents.

Requested Services:

On the following activities, the Consultant will provide support to the Project Management Team (PMT) as Implementation Consultant:

- **Phase 1: Lot 1 – Four 132 kV substations in Nineveh.** Activities starting after the Employer's Taking over during the Defects Notification Period (12 months) until the issuing of the Performance Certificate.
- **Phase 2: Lot 1 – Mosul Supergrid 400 kV GIS Substation.** Activities under the Design and Build Contract until the issuing of the Performance Certificate. The Design and Build Contract is ongoing.
- **Phase 2: Lot 2 – Tikrit and Ramadi 132/33kV and 33/11kV Substations.** Activities under the Design and Build Contract until the issuing of the Performance Certificate. The Design and Build Contract commencement date is expected for January or February 2022.
- **Phase 2: Lot 4 – Haditha – Qa'em 132 kV Overhead Transmission Line in Al-Anbar Province.** The Consultant will provide support to the PMT on activities starting after Employer's Taking over during the Defects Notification Period (12 months) until the issuing of the Performance Certificate.

International competitive bidding will be conducted in accordance with Single Stage: Three Envelopes procedure and is open to all Bidders from eligible countries

The contract will be awarded to a Consulting firm with proven experience as Implementation Consultant on substations Design and Build Contracts (FIDIC Yellow Book), experience in the region and a minimum annual turnover of USD 5 million.
